INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders
Taiwan Steel Union Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Taiwan Steel Union Co., Ltd. (the "Company") and its subsidiary (collectively referred to as the "Group") as of March 31, 2025 and 2024, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the three months then ended, and the related notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with TWSRE 2410 "Review of Financial Statements". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2025 and 2024, its consolidated financial performance and its consolidated cash flows for the three months then ended March 31, 2025 and 2024, and in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Jui-Lung Hsu and Done-Yuin Tseng.

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2025 AND 2024 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)

1. GENERAL INFORMATION

Taiwan Steel Union Co., Ltd (the “Company”) was established in April 1995 and incorporated in August of the same year.

The Company’s main business is to dispose and reuse general industrial waste and hazardous industrial waste as well as manufacture and trade non-ferrous metal (zinc oxide) and non-metallic mineral products.

The Company obtained the permission document of treating electric arc furnace dust for general use since December 28, 2017. The Company’s shares have been listed on the Taiwan Stock Exchange (TWSE) since January 30, 2018.

The consolidated financial statements are presented in the Company’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company’s board of directors on April 23, 2025.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission (FSC)

Amendments to IAS 21 “Lack of Exchangeability”

The initial application of the amendments to IAS 21 “Lack of Exchangeability” did not have a material impact on the Group’s accounting policies.

- b. The IFRS Accounting Standards endorsed by the FSC for application starting from 2026

New IFRSs	Effective Date Announced by IASB
Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments” - the amendments to the application guidance of classification of financial assets.	January 1, 2026 (Note)
Note : The Group shall apply those amendments for annual reporting periods beginning on or after January 1, 2026. It is permitted to apply these amendments for an earlier period beginning on January 1, 2025.	

Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments” - the amendments to the application guidance of classification of financial assets

The amendments mainly amend the requirements for the classification of financial assets, including:

- a) if a financial asset contains a contingent feature that could change the timing or amount of contractual cash flows and the contingent event itself does not relate directly to changes in basic lending risks and costs (e.g., whether the debtor achieves a contractually specified reduction in carbon emissions), the financial asset has contractual cash flows that are solely payments of principal and interest on the principal amount outstanding if, and only if,
 - In all possible scenarios (before and after the occurrence of a contingent event), the contractual cash flows are solely payments of principal and interest on the principal amount outstanding; and
 - In all possible scenarios, the contractual cash flows would not be significantly different from the contractual cash flows on a financial instrument with identical contractual terms, but without such a contingent feature.
- b) to clarify that a financial asset has non-recourse features if an entity’s ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets.
- c) to clarify that the characteristics of contractually linked instruments include a prioritization of payments to the holders of financial assets using multiple contractually linked instruments established through a waterfall payment structure, resulting in concentrations of credit risk and a disproportionate allocation of cash shortfalls from the underlying pool between the tranches.

An entity shall apply the amendments retrospectively but is not required to restate prior periods. The effect of initially applying the amendments shall be recognized as an adjustment to the opening balance at the date of initial application. An entity may restate prior periods if, and only if, it is possible to do so without the use of hindsight.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact of the application of the amendments on the Group’s financial position and financial performance.

- c. The IFRS Accounting Standards in issue but not yet endorsed and issued into effect by the FSC

Note : Unless stated otherwise, the above IFRSs Accounting Standards are effective for annual		

reporting periods beginning on or after their respective effective dates.

IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 will supersede IAS 1” Presentation of Financial Statements”. The main changes comprise:

- Items of income and expenses included in the statement of profit or loss shall be classified into the operating, investing, financing, income taxes and discontinued operations categories.
- The statement of profit or loss shall present totals and subtotals for operating profit or loss, profit or loss before financing and income taxes and profit or loss.
- Provides guidance to enhance the requirements of aggregation and disaggregation: The Group shall identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events and shall classify and aggregate them into groups based on shared characteristics, so as to result in the presentation in the primary financial statements of line items that have at least one similar characteristic. The Group shall disaggregate items with dissimilar characteristics in the primary financial statements and in the notes. The Group labels items as “other” only if it cannot find a more informative label.
- Disclosures on Management-defined Performance Measures (MPMs): When in public communications outside financial statements and communicating to users of financial statements management’s view of an aspect of the financial performance of the Group as a whole, the Group shall disclose related information about its MPMs in a single note to the financial statements, including the description of such measures, calculations, reconciliations to the subtotal or total specified by IFRS Accounting Standards and the income tax and non-controlling interests effects of related reconciliation items.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact of the application of other standards and interpretations on the Group’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;

- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiary).

When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with those used of the Company.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation.

See Note 10 and Tables 4 for detailed information on subsidiary (including the percentages of ownership and main businesses).

d. Other significant accounting policies

Except for the following, refer to the consolidated financial statements for the year ended December 31, 2024.

1) Investments in associates

An associate is an entity over which the Group has significant influence and which is neither a subsidiary nor an interest in a joint venture.

The Group uses the equity method to account for its investments in associates

Under the equity method, investments in an associate are initially recognized at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate. The Group also recognizes the changes in the Group's share of the equity of associates.

The entire carrying amount of an investment is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

When the Group transacts with its associate, profits and losses resulting from the transactions with the associate are recognized in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

2) Carbon fee liabilities

In accordance with the Regulations Governing the Collection of Carbon Fees and related regulations of the ROC, the carbon fee liabilities are recognized and measured on the basis of the best estimate of the expenditure required to settle the obligation for the current year, and are recognized and measured on the actual emissions or proportionally on the estimated total emissions for the year.

3) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market

fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

4) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Except for the following, the same critical accounting judgments and key sources of estimation uncertainty of consolidated financial statements have been followed in these consolidated financial statements as those applied in the preparation of the consolidated financial statements for the year ended December 31, 2024.

Carbon fees

In accordance with the Regulations Governing the Collection of Carbon Fees and related regulations of the ROC, the management recognizes the carbon fees liabilities based on the estimate of the chargeable emissions and the preferential rate. The estimate may vary as a result of the change in the estimated possibility in the approval for the self-determined reduction plan or for the recognition as belonging to the industry with high carbon leakage risk from the competent authority, changes in the relevant regulations and the expected achievement of the annual designated target. Therefore, the estimated amount of provision is subject to a higher degree of estimation uncertainties. The carrying amount of the carbon fee provision as of March 31, 2025 could not be reliably estimated.

The average credit period of sales of goods is 60 to 90 days. No interest is charged on trade receivables. The Group adopted a policy of only dealing with entities that have good credit ratings and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group uses other publicly available financial information or its own trading records to rate its major customers. The Group obtains credit reports from independent rating agencies for those customers who have higher risk. The Group's exposure and the credit ratings of its counterparties are continuously monitored.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix approach considering the past default experience of the customer, the customer's current financial position, economic condition of the industry in which the customer operates. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off trade receivables when there is evidence indicating that the customer is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of notes receivable and trade receivables.

	<u>\$ 999,216</u>	<u>\$ 999,216</u>	<u>\$ 999,216</u>

Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and to once a year). Expired employee share options and disgorgement can only be used to offset a deficit.

c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Articles, where the Company made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. According to the Article 240-5 of the Company's Articles, if two thirds of directors or more attended the meeting and over half of the directors who attended approve the resolution, the Company may authorize the board of directors to appropriate part or of all of the accrued dividends or bonuses, by cash, and a report shall be submitted to the shareholders' meeting. For the policies on the distribution of compensation of employees and remuneration of directors, refer to compensation of employees and remuneration of directors in Note 19-e.

In addition, under the dividends policy set forth in the Articles, the Company may distribute dividends in cash or shares. If the Company decides to distribute in cash, in principle, the cash dividends shall not be lower than 10% of share dividends.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. The legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of earnings for 2024 and 2023 which have been proposed by the board of directors on February 24, 2025 and approved in the shareholders' meetings on May 30, 2024, respectively, were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)

e. Compensation of employees and remuneration of directors

According to the Company's Articles, the Company accrues compensation of employees and remuneration of directors at rates of no less than 1% and no higher than 3%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors. In accordance with the amendments to the Securities and Exchange Act in August 2024, the shareholders of the Company expect to resolve the amendments to the Company's Articles at their 2025 regular meeting. The amendments explicitly stipulate the allocation of 1% of net profit before income tax, compensation of employees, and remuneration of directors as compensation distributions for non-executive employees. The compensation of employees (including non-executive employees) and remuneration of directors for the three months ended March 31, 2025 and 2024, are as follows:

	For the Three Months Ended March 31

23. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to shareholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of net debt (borrowings offset by cash and cash equivalents) and equity of the Group (comprising share capital, capital surplus, and retained earnings).

Key management personnel of the Group review the capital structure on a regular basis. As part of this review, the key management personnel consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the key management personnel, in order to balance the overall capital structure, the Group may adjust the amount of dividends paid to shareholders, the number of new shares issued, and the amount of new debt issued or existing debt redeemed.

The Group is not subject to any externally imposed capital requirements.

24. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments not measured at fair value

- 2) The balances included financial liabilities measured at amortized cost, which comprise notes payables, trade payables (include related party), other payables, long-term bank loans (including the current portion) and guarantee deposits received (recognized as other non-current liabilities).

c. Financial risk management objectives and policies

The Group's major financial instruments include cash and cash equivalents, trade receivables, trade payables, and borrowings. The Group's corporate treasury function provides services to the business, coordinates access to domestic and international financial markets, and monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk.

The corporate treasury and sales function report regularly to the management personnel of the Group. The management personnel oversee the impact of the financial risks.

1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates (refer to (a) below) and interest rates (refer to (b) below).

There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

a) Foreign currency risk

The Group have foreign currency denominated sales, which exposes the Group to foreign currency risk.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities are set out in Note 28.

Sensitivity analysis

The Group is mainly exposed to the USD. The following table details the Group's sensitivity to a 1% increase and decrease in New Taiwan dollars (i.e., the functional currency) against USD. The sensitivity rate used when reporting foreign currency risk internally to key management personnel and representing management's assessment of the reasonably possible change in foreign exchange rates is 1%. The sensitivity analysis included only outstanding foreign

currency denominated monetary items, and adjusts their translation at the end of the period for a 1% change in foreign currency rates. A positive number below indicates a decrease in pre-tax profit with the New Taiwan dollars strengthening 1% against USD. For a 1% weakening of the New Taiwan dollars against USD, there would be an equal and opposite impact on pre-tax profit, and the balances below would be negative.

	For the Three Months Ended March 31	
	2025	2024
Profit before income tax	\$ 384	\$ 448

b) Interest rate risk

The Group is exposed to interest rate risk because entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetites ensuring the most cost-effective hedging strategies are applied.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the year were as follows:

	March 31, 2025	December 31, 2024	March 31, 2024
Fair value interest rate risk			
Financial assets	\$ 5,000	\$ 100,000	\$ 174,432
Cash flow interest rate risk			
Financial assets	\$ 1,053,675	\$ 738,124	\$ 716,869
Financial liabilities	548,489	558,056	-

Sensitivity analysis

The sensitivity analysis below was determined based on the Group's exposure to interest rates for both derivative and non-derivative instruments at the end of the year. For floating rate liabilities, the analysis was prepared assuming the amount of each liability outstanding at the end of the year was outstanding for the whole year. A 1% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 1% higher and all other variables were held constant, the Group's per-tax profit for the three months ended March 31, 2025 and 2024 would have increased by \$1,263 thousand and \$1,792 thousand, respectively, which was mainly a result of variable-rate bank deposits and borrowings of the Group.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. At the end of the year, the Group's maximum exposure to credit risk, which would cause a financial loss to the Group due to failure of counterparties to discharge its obligations and due to the financial guarantees provided by the Group, could be equal to the carrying amount of the respective recognized financial assets as stated in the balance sheets.

The Group adopted a policy of only dealing with creditworthy counterparties. In order to minimize credit risk, based on the Credit Management Guidelines, the management of the Group has delegated a team responsible for determining credit limits, credit approvals, and other monitoring procedures to ensure that follow-up action is taken to recover overdue receivables.

The Group assesses the financial positions of the customers with trade receivables continuously.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

Liquidity and interest rate risk tables for non-derivative financial liabilities

The following table details the Group's remaining contractual maturities for its non-derivative financial liabilities with agreed upon repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause were included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on the agreed upon repayment dates.

30. SEGMENT INFORMATION

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance focuses on the types of goods or services delivered or provided. The Company's main business is to dispose and reuse EAF dust and other waste, and recycle zinc oxide which has economic value when sold. Taiwan Steel Resources Co.'s main business is to dispose reducing slags and other slags. The processed products can be used in civil engineering and ready-mixed concrete

industries that comply with laws and regulations. The chief operating decision maker considers the Company and Taiwan Steel Resources Co. as separate operating segments for the purposes of financial statements presentation.

The Company and its subsidiary's revenue, operating results, and assets and liabilities for the three months ended March 31, 2025 and 2024, were as follows:

Segment profit represented the profit before tax earned by each segment without share of the profit or loss of associates, interest income, other income, net foreign exchange gain, finance costs, other expenses, loss on disposals of property, plant and equipment and income tax expense. This was the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

For the purpose of monitoring segment performance and allocating resources between segments:

- a. All assets were allocated to reportable segments other than other financial assets and deferred tax assets; and
- b. All liabilities were allocated to reportable segments other than borrowings and current and deferred tax liabilities.
